The Tierpark Association Arnstadt e.V. aims to maintain the Arnstadt's „Fasanerie“ Zoological Park including its nature research and public educational activities as a cultural asset and significantly increase its attractiveness.

We want to help people in their endeavours to harmonise with nature and animals, to conserve wildlife and to protect nature and the environment. Furthermore, our association seeks to awaken and intensify interest in the study of animals and nature in all its facets.

The emphasis of the association's work is on the public presentation of the Zoological Park and supporting its development and upkeep. For this we are trying to coordinate the economic interests of businesses with those of Arnstadt's Zoological Park. We want to help create a “hands-on” Zoological Park.
